Pediatric Services

Comprehensive Center provides physical therapy, occupational therapy, speech therapy, counseling, sensory integration and SEIT services at our office, preschools, public/private schools, and home-based settings throughout all five boroughs of New York City.

Adult Services

We have physical therapy and occupational therapy for our adult clients at our office. We also have sports medicine and pain management services for adults under the supervision of a physiatrist. In addition, we provide nursing and therapy services in nursing homes and hospitals.

Up and Coming Preschool Opportunity

We provide special education for children with disabilities in our Comprehensive Kids Developmental Center. In addition, we provide physical therapy, occupational therapy, speech therapy, sensory integration and counseling services. Our classes are small and consist of special education teacher, teacher's assistant and paraprofessionals. We offer monolingual as well as bilingual classroom settings.

Contact **Stacey Sand, M.S. CCC-SLP (Director of Rehabilitation)**, to request information regarding job opportunities at our facility.
