## Compiler's Note

LaGuardia Faculty Publications is produced every five years to encapsulate the published work of the faculty of LaGuardia Community College. This third edition covers the period of 1968 to 2000. In addition, it features forthcoming documents for the year 2001.

The objective of the publication is to recognize and highlight the research and scholarly endeavors of LaGuardia's faculty. This bibliographic guide features books, articles, published conference proceedings and reports. The third edition has been expanded to include print, audiovisual materials and electronic formats. This publication will be a valuable resource for not only the LaGuardia community, but the global academic community as well.

The bibliographic citations are alphabetically arranged by the author's last name. There is a subjects index to reflect the types of documents included. The citations have been formatted according to the fifth edition of the MLA Handbook for Writers of Research Papers. The standard MLA abbreviation for no pagination (N. pag.) has been used in the citations when information was not available.

Special thanks to Mildred Velazquez for her invaluable assistance in formatting and entering the data into the ProCite database and to Dale Cohen for the cover design.
