

LaGuardia Community College / C U N Y

EMT Refresher Course

Through this course you will refresh previously learned material and learn the latest and most up to date information on protocol changes and policy.

We will evaluate your current skill and knowledge using the challenge refresher model. At the beginning of the class, you will take a "challenge" exam to determine what material you need to review. Based on the results of the challenge examination, we develop a customized schedule for you which indicate which sessions you will be required to attend.

Students who successfully complete all course requirements will take the NYS EMT-B Certification exam to renew their certification.
